## ABOUT ME

I am a third-year Software Engineering student at the University of Phayao, eager to apply my skills and creativity in UX/UI Design during an internship from 3 November 2025 to 20 February 2026.

## PROJECT

### SLRI FLOWER

**Oct 8 2023 – Oct 9 2023**

I was responsible for UX/UI design, focusing on creating a clean and user-friendly interface using tools like Figma.

### melodytune

**Jul 2024– Sep 2024**

In this project, I was responsible for designing the UX/UI for 3 pages and developing the front-end for 1 page.

### Second-hand IT Equipment Website

**Jul 2024– Sep 2024**

This project, I was mainly responsible for UX/UI design and front-end development. I primarily used Next.js to build the user interface and styled it with Tailwind CSS.

### Cookzy

**Dec 2024– Feb 2025**

In this project, I mainly worked as a front-end developer using Next.js. My responsibilities focused on building the user interface, and I used Tailwind CSS for styling.
